17 August 2006

Dear Nikki,

We just wanted to put pen to paper to thank you for your continued excellent service in providing our dental clinic with temporary dental nurses. We have been using your services for a couple of years and have been consistently provided with nurses, sometimes with little or no notice. The nurses are always reliable, punctual and hardworking. This has been a great help in that it has saved us from cancelling day lists. This not only avoids lost revenue but also means we do not have to cancel patients' appointments.

We would not hesitate in recommending you to any surgery requiring temporary dental nurses and look forward to a continued and happy business relationship in the future.

Yours sincerely,

Lisa Costigan
